

MD 32 Linden Church Interchange

Project Construction Update

June 2013

Crews have completed the base paving for the new West Linden Church Road leading up to the new bridge (Photo taken June 4, 2013.)

- Please watch for new traffic patterns.
- Observe new signs and flaggers during lane closures.
- Please drive carefully through the work zone and beyond.
- Watch for construction equipment and working crews.
- Please note: Bicycles are prohibited on MD 32 between Burntwoods Road and MD 108 for the duration of the project. Bicyclists should follow the posted detour route.

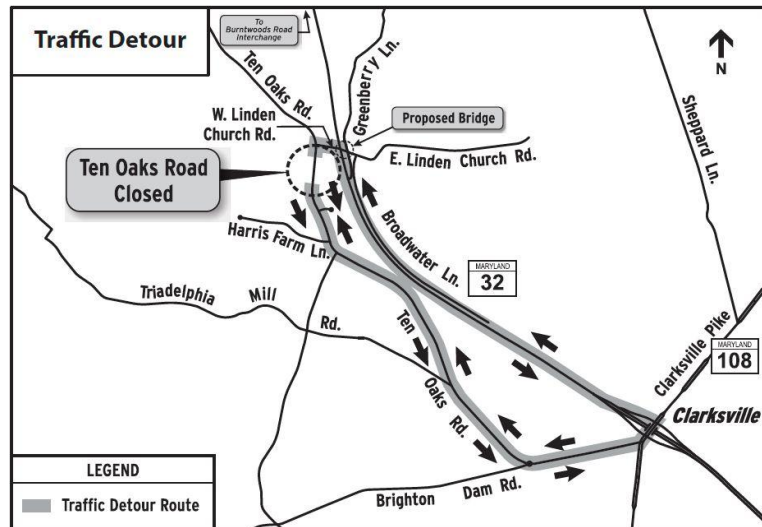

Crews have graded the future on-ramp to southbound MD 32 (Ramp A) (Photo taken May 29 2013).

Current Progress:

1. Crews have completed the base paving for the new West Linden Church Road with hot mix asphalt (pictured at upper left).
2. Crews have been building the dirt “fills” for the slopes of the future ramps between MD 32 and Linden Church Road (pictured at lower left).
3. The project team held a public informational meeting May 28 to provide an update on construction and information about the closure of a portion of Ten Oaks Road this summer. About 50 people attended.

Upcoming Work:

1. Crews will place concrete barrier wall along northbound MD 32 prior to East Linden Church Road to begin excavation and clearing of trees for the future off-ramp.
2. Crews will continue work on the new ramps, including excavating and placing graded aggregate base (crushed stone which forms the foundation layer of a road).
3. On **June 17**, weather permitting, crews will temporarily close the section of Ten Oaks Road just south of West Linden Church Road and implement a detour, as shown below. This closure will last approximately six weeks.

4. During the Ten Oaks Road closure, crews will be installing storm drain pipe and changing the grade of the roadway to improve sight distances.

On behalf of Maryland State Highway Administration, I would like to request your cooperation and patience. Please drive with caution through our work zones.
